Mark is an Environmental, Health and Safety (EHS) professional with more than 20 years of progressive growth in the industry. His various roles have included Certified Hazardous Materials Manager (CHMM) and Environmental Management System (EMS) auditor.

Mark is an expert in the creation, implementation, and maintenance of company-wide programs to align organizations with regulatory compliance guidelines. He has a strong background in supporting goal setting with national and global management teams. He has often been recognized for his excellence in leadership.

Mark's vast classroom experience includes providing EHS training services to industrial, manufacturing, pharmaceutical, and construction companies. He has conducted internal safety and hazard audits for environmental and bacteriological testing labs.
